

# Drops of Rain

## Carbon Leaf

Drops of rain, oh, the sun wants to break through  
April just wants her lazy Saturday  
New lovers peak from their nesting eves  
Some secrets to keep, they spill out everywhere  
On the corners, out in the streets, just a hoody affair  
A sweatshirt morning everywhere  
Drops of rain on the coffee window pane  
I know, I won't get hooked on simple days  
If ignorance is bliss, my love  
I never would forget what I knew when I was young  
Man, I know I can't hold on to April drops of rain  
And then come what may  
But it's hard to look, it's hard to look, it's hard to look away  
Life is rich, life is rich  
Only if we live through its experience  
No thought for a while, just a quick fix on a smile  
Spring is fun forever young, it's just its job  
Gets in and out and then its job is done  
Before summer's born, we're caught between  
Human condition frailty, heaven and hell, love and lust  
Oh well, so much to learn  
If ignorance is bliss, my love  
I never would forget what I knew when I was young  
Man, I know I can't hold on to April drops of rain  
And then come what may  
But it's hard to look, it's hard to look, it's hard to look away  
Drops of rain, flip flop, belly ring, pull back hair, I  
really don't care  
Just a hoody affair, just a hoody affair, just a hoody kind of thing  
Drops of rain, flip flop, belly ring, pull back hair, walk nowhere  
Just a hoody affair, just a hoody affair, just a hoody kind of thing  
Drops of rain, flip flop, belly ring, pull back hair, I really don't care  
Just a hoody affair, just a hoody affair, just a hoody kind of thing  
Drops of rain, flip flop, belly ring, pull back hair, walk nowhere  
Just a hoody affair, just a hoody affair  
If ignorance is bliss, my love  
I never would forget what I knew when I was young  
Man, I know I can't hold on to April drops of rain  
And then come what may  
But it's hard to look, it's hard to look, it's hard to look away
