

# Skeleton Boy

## Friendly Fires

I close my eyes on the dance floor  
I forget about you  
I lose myself in flashing colors  
I've gotta see it through  
You're too much,  
I take it that we're over  
Should we even care at all?  
Too much, too much  
Lets shake hands and say goodbye  
Your love is out  
Believing despite the loss  
Give me your hand  
Lets face this night and see it through  
(repeat)  
Right by my feet, lay broken glasses

You Skeleton Boy  
Swept from the walls, drips on my shoulder  
I gotta see it through  
You're too much,  
I take it that we're over  
Should we even care at all?  
Too much, too much  
Lets shake hands and say goodbye  
Before the sun comes out  
Shake hands and say  
Your love is out  
Believing despite the loss  
Give me your hand  
Lets face this night and see it through  
(repeat)JB
