

Penguin Freud

Mono

No direction, need protection
All the futures pass with me
Feel rejection, isolation
Still in silence, want to be, lone in me
Beauty stupid, nothing but vanity
Can't you see?
Feel deception, lost direction
Like never before, like never before
I still see myself in you now
Like a lifetime lived before
So indifferent, no commitment
Always hiding safe in me
Close my eyes tight just to feel right
But the words mean nothing to me
Beauty stupid, nothing but vanity
Can't you see?
Feel deception, lost direction
Like never before, like never before
I still see myself in you now
Like a lifetime lived before
Lost in your own world
Trying to see through mine but I'm just fine
Lost direction, feel deception
Like never before, like never before
I still see myself in you now
Like a lifetime lived before
