Make Me A Believer

Crossfade

Will it make me feel even
Will it make me feel right
Will it solve all my problems
Solve my life
Make me a believer
Make me a believer
Lost
Something is lost
Alone
Dying alone
Make me a believer
Because it makes me feel even
Because it makes me feel right
Because it solves all my problems
Because it solves my life
Lost
Someone is lost
Alone
Dying alone
Make me a believer
Its in my blood

Its underneath my skin
Beneath my skin
Its underneath my skin
Your in my blood
Your underneath my skin
Beneath my skin
Its underneath my skin
What will you make me
What will you make me
What will you make me
What will you make me
What will you make me
What will you make me
What will you make me
What will you make me
Does it make a difference who I am
When I'm alone

Does it make a difference who I am
When I'm alone
Make me a believer
Make me believe
Make me a believer
Make me believe
