Few Against Many

Firewind

You got a one ticket to hell
To kill your pain
The things that you want to forget
Will sure remain
Hell want you to trip
Hell want you to trip
Remind me before I forget
You want away
But if you in the game
You would regret
What about life? What about loves guiding name
What about the fight?
For we are few against many
Theres only so much you can do
Dont run your fate
And when you hear it a few,
You will know, theres no escapeWhat about needs who feed game
What about hate? Leaving it all behind
We will fight, you are too much right
Cause we are few against many
[Guitar solo]
What about life? What about loves guiding name
What about the fight?
What about needs who feed game
What about hate? Leaving it all behind
We will fight, you are too much right
Hell wants your retreat
Hell wants your retreat
You must stand and fight
You must do much right
You must feel the light
You must fight.
