

# Pantera Fans In Love

## Nerf Herder

I bleached my hair just like Vince Neil  
Then you made me cut it like James Hetfield  
We're gonna put an end to alternative rock  
We'll find a way to make the Cranberries stop  
We went to Sears for pictures at Christmastime  
But they wouldn't let us make the metal sign  
No they wouldn't let us make the metal sign I'll bring the wine you bring the bread and cheese  
It's hard to eat when you're headbanging  
Makin' out in the middle of the pit  
How come Slayer doesn't sing about this  
If anything comes between you and me  
Then heavy metal heaven, that's where we'll meet  
We are Pantera fans in love What's with these punk rock nerds, they can't even sing  
I wish we'd never heard of The Offspring  
A candlelit dinner, now we're holding hands  
I taught you how to draw your first pentagram  
We went miniature golfing but we didn't get far  
Because we used the clubs to play air guitar  
Oh we used the clubs to play air guitar now I'll bring the wine you bring the bread and cheese  
It's hard to eat when you're headbanging  
Makin' out in the middle of the pit  
How come Slayer doesn't sing about this  
If anything comes between you and me  
Then heavy metal heaven, that's where we'll meet  
We are Pantera fans in love  
We are we are Pantera fans in love
