Victoria

EVE 6

shes doing body shots off italian guys in mexico
im all alone
shes dancing with a vampire to bilingual disco
im all alone
cuz she went to la playa for the fire show
if i could be a fly up on the wall i would know
i dont mean to be possessive but baby please im getting desperate
no i dont believe you went to bed at 10: 15
victoria youre tearing me up you said youd call i waited up i dont know why i even try i need another tequlia
she goes out lets her hair down bumps up
im all alone
shes grooving to a coldplay dance mix turned up
im all alone
cuz she went to la playa for the fire show am i in denial is she dancing alone
you dont like my attitude well i dont like your latitude
no i dont believe you went to bed at 10: 15
victoria youre tearing me up you said youd call i waited up i dont know why i even try i need another tequlia
another tequila
i hope los gran mosquitoes get ya and you sun in stormy weather
i wish i never met you
no i dont believe you went to bed at 10: 15
victoria youre tearing me up you said youd call i waited up i gotta gotta say no
i dont believe you went to bed at 10: 15
victoria youre tearing me up you said youd call i waited up i dont know why i even try i need another tequlia.
