That's What They Do

Sahara Hotnights

I feel sick when I hear myself
Shouting out the wrong words at the wrong time
I'm incapable of listening
Carefully when you talk too much, talk too muchAnd then we who, 'cause we didn't try to, we drown
And when those who can swim see how we drownA conversation with the favorite boy
I feel so I fail, why do I fail when I feel
This conversation ain't falling, the back has falling down
Hit the groundAnd then we who, 'cause we didn't try to, we drown
And when those who can swim see how we drownThey laugh they turn around that's what they doYou asked me once if I was freezing cold
I said, I'm cold as the razor blade
I told you once that I can shock you
Everyone's seen everythingAnd then we who, 'cause we didn't try to, we drown
And when those who can swim see how we drownThey laugh they turn around that's what they doAnd then we who, 'cause we didn't try to, we drown
And when those who can swim see how we drownThey laugh, they turn around
And they laugh, they laugh, they turn around
And that's what they do
