

# Under The Wire

## Carbon Leaf

I need to feel redeemed  
I'm going sideways down  
An ever winding road  
With an ever unbinding load  
Of a one track mind  
Of a love that's lost somehow  
Of a flashing sign  
I'm under the wire now  
Under the wire  
I'm a train down the line  
Nothing left to lose or gain  
But distance over time  
Under the wire  
Over all that we've been through  
Tell me what to do?  
To get to you  
I need to feel the breeze  
Of a new day's dawn  
I need to be released  
From the cold steel rail I'm on  
Shake the love for a woman  
Break the emotion overdrive  
Take the train to oblivion  
At the crossing of our lives  
Under the wire  
I'm a train down the line  
Nothing left to lose or gain  
But distance over time  
Under the wire  
Over all that we've been through  
Tell me what to do?  
To get to you  
I need to feel redeemed  
I wear my heart on a crying sleeve  
I bear the pressure of oil and moving steam  
Unaware of my gaining speed  
I'm prepared to move ahead, take the lead  
Under the wire  
I'm a train down the line  
With nothing left to lose or gain  
But distance over time  
Under the wire  
Over all that we've been through  
Tell me what to do?  
To get to you  
I am a steel freight train  
I am a train wreck, hauling back to you
