## Tonight

## **Cartel**

Hey, oh, this is another one Honey, but it's not the same you say How could I ask you? Oh, c-c-come on let me ask youSay, say it just once Till theres nothing left to be said Give me all, give me all How could ever ask of you? And it's more than I can standSo maybe tonight, see it for the first time And it shows, yeah, it shows Just give me tonight, see it for the first time And it shows, yeah, it shows So maybe this is asking Too much of you But I'm no mood this time And I'm thinking 'bout making you mineOh, please just say this once And there's nothing else to be said And it's all, baby all I can think of when I'm with you And it's more than I can standSo maybe tonight, see it for the first time And it shows, yeah, it shows Just give me tonight, see it for the first time And it shows, yeah it showsWell, is this love? Is it now? Is it now? Is this love? Say it now, come on say it now And it's more than I can stand So maybe tonight, see it for the first time And it shows, yeah, it shows Just give me tonight, see it for the first time And it shows, yeah, it shows
