

# It'll All Work Out

## Tom Petty & The Heartbreakers

She wore faded jeans and soft black leather  
She had eyes so blue they looked like weather  
When she needed me I wasn't around

That's the way it goes, it'll all work out There were times apart, there were times together

I was pledged to her for worse or better  
When it mattered most I let her down

That's the way it goes, it'll all work out It'll all work out eventually  
Better off with him than here with me It'll all work out eventually  
Maybe better with him than here with me
