

# Come See Me

## The Crawdaddys

Baby you can come see me 'cuz I need you here with me  
And I'll show you what love is made of  
Later on if you are free, baby you can come see me  
And I'll show you what love is made of  
It's been a while and I'm sitting here thinking of  
How it felt when we first made love  
Oh I need that feeling again  
Nobody can compare, so  
Come with me and I'll go with you  
To this place that lovers dream of  
We can do anything, sexy things  
And I'm here to let you know

Baby you can come see me 'cuz I need you here with me  
And I'll show you what love is made of  
Later on if you are free, baby you can come see me  
And I'll show you what love is made of  
It's been a while, thinking about the last time I held you  
And the smell of your sweet perfume, babe  
The way I felt when you left my room  
Oh I wanna feel that way tonight  
Come with me and I'll go with you  
To this place that lovers dream of  
We can do anything, sexy things  
And I'm here to let you know

Baby you can come see me 'cuz I need you here with me  
And I'll show you what love is made of  
Later on if you are free, baby you can come see me  
And I'll show you what love is made of  
Baby you can come see me 'cuz I need you here with me  
And I'll show you what love is made of  
Later on if you are free, baby you can come see me  
And I'll show you what love is made of

Now that bodysuit that you're wearing girl, it fits you like paint  
You think that I'ma sit here and pass this chance when I ain't  
I got some thoughts set on you, how many things we can do  
How many women in my life but yet I only love you  
You're number one on my list and I  
I reminisce over our first kiss and girlfriend, yo picture this  
Let's relight the candle, give this one more shot

I never meant to mistreat ya girl, I need you right now  
Baby you can come see me 'cuz I need you here with me  
And I'll show you what love is made of  
Later on if you are free, baby you can come see me  
And I'll show you what love is made of  
Baby you can come see me  
And I'll show you what love is made of  
Later on if you are free  
And I'll show you what love is made of  
Baby you can come see me  
And I'll show you what love is made of
