Time Fades (Ruff Demo Mix)

My Broken Memories

There's that moment, when you blink. There is nothing, there is nothing. There's that moment when you blink. There is nothing, there is.... nothing. To rise and not fall. Follow shattered windows, cracks slip away. The memory fades. Just not today. Rain begins to fall on a heart that beats no more. For the eyes have seen those lies. My time to fall. Burning, burning.screaming screaming.tonight becomes my night to breathe in. Burning,screaming, tonight becomes my night to watch you fall.burning screaming tonight becomes my night to breathe in.burning screaming tonight becomes my night to watch you fall. I feel you no more. I feel you no more
