Cut the Grass

Cheatahs

When I figured out about the (distance)
I could have truly shot the sun
Stars are spinning out (of the distance)
(Jaded) knows you ever so longThe clouds have faded out the grass is (cleaner)
Trying not to tread (on the wine)
There (will be no doubt)
(Getting sweeter)
To keep it in the shade for too longAnd toss away 'til it falls away
And toss away 'til it falls away
Toss away 'til it falls away
And toss away "til it falls away
