

# Karma Wheel

[Sammy Hagar](#)

I can't close my eyes Feelin' what I see I turn away But still can see I can't change the world  
But I can change my mind It's not enough  
It's not enough Color your thoughts Color your speech  
Bury your head deep in a sleep  
Harden your shell Head in a hole And it's haunting me It's changin me Seems so unreal This karma wheel  
Run from your feelings  
Head in a hole Mind filled with power Out of control Edge of depression  
Broken the seal No need for compression Roll the karma wheel  
Nothing can heal Roll that karma wheel Roll that karma wheel Roll that karma wheel Yeah, that karma wheel Roll  
with it Out of control  
Head's in a hole Roll that karma wheel Mind filled with power
