No Easy Way Out

Leslie Mendelson

We could fly right over the talk
The talk of the town
And nobody would ever know
If we were aroundWatching them looking for us
Where we couldn't be found
Wasting their timeBut somehow we got ourselves lost
At the end of the street
Tangled and twisted our bodies
Caught up in the heatEverything perfect but somehow
We missed the beat
We crossed the lineAnd now there's no easy way out
And now there's no easy way out
And now there's no easy way out
For us tonight, no easy way out
But somehow it will be alrightLove has a habit of setting you up for a fall
One minute high as a kite
Then you're feeling so small
Free as a bird and then feeling
Chained to the wall, we lost our mindsAnd now there's no easy way out
And now there's no easy way out
And now there's no easy way out
For us tonight, no easy way out
But somehow it will be alright
