Freefall

Jessica Jarrell

Oh, no, oh, oh, ho, yeah, woah, ho, oh ho, oh, oh, oh, yeah,
We've come this far,
By living on the edge,
Always down to take the risk,
Baby tell me what makes now so different,
Was it something in the way we kissed,
There's a spark I felt it,
You can't deny that it felt like magic,
I ain't scared to fly if,
If you take my hand,
Don't look down,
Keep it here,In my eyes you won't notice,
So high of the ground,
Here we stand,
So let's jump and take a chance for love and freefall,(Chorus)
Forget about the world around us,
They can't help us,
They can't save us baby,
Forget about what may happen
if we just freefall,
You worry bout a whole lot of nothing,
We got something,
We gonna be straight baby,
You don't need to see where we land,
Look into your heart,
and Freefall, freefall, freefall in love,
Freefall, freefall, freefall in love,
Freefall, freefall, freefall in love,
You don't need to see where we land
look into your heart
and freefall,If you don't believe me,
put me up for the trialing,
go ahead lose your balance,
See how quick my love be at your rescue,
Let the wind be our wings,
We don't need no parachute,
'Cause where ever we land I'll be with you,
So don't be scared to fly if..
If you take my hand,

Don't look down,
Keep it here,In my eyes
you won't notice,
So high off the ground,
here we stand,
So let's jump and take a chance for love and freefall,
(Forget about the world)(Chorus)
Forget about the world around us,
They can't help us,
They can't save us baby,
Forget about what may happen
if we just freefall,
You worry bout a whole lot of nothing,
We got something,
We gonna be straight baby,
You don't need to see where we land,
Look into your heart,
and Freefall, freefall, freefall in love,
Freefall, freefall, freefall in love,
Freefall, freefall, freefall in love,
You don't need to see where we land
look into your heart and freefall,Who cares,
live once ,
Let's take a double dare,
If you can't hang to the air,
you Got a sidekick, Baby,
Keep your hands on your girl right here,
Baby,Who cares
if we were to hit the floor,
And if it hurts that's just the cost
for crushing,
Baby together when you're falling on love.....(Chorus)
Forget about the world around us,
They can't help us,
They can't save us baby,
Forget about what may happen
if we just freefall,
You worry about a whole lot of nothing,
We got something,
We gonna be straight baby,
You don't need to see where we land,
Look into your heart,
and Freefall, freefall, freefall in love,
Freefall, freefall, freefall in love,
Freefall, freefall, freefall in love,

You don't need to see where we land
look into your heart
and freefall,(Freefall, freefall)
