# The Crystal Lake

## Grandaddy

Should never have left the crystal lakeShould never have left the crystal lake
For parties full of folks who flake
Italian leather winter games
Retired by the duraflamesThe crystal lake it only laughs
It knows you're just a modern man
It's shining like the chandelier
Shining somewhere far away from hereI've gotta get outta here
I've gotta get outta here
I've gotta get outta here
I've gotta get outta here
And find my way again
I've lost my way againShould never have left the crystal lakeShould never have left the crystal lake
For areas where trees are fake
And dogs are dead with broken hearts
Collapsing by the coffee cartsThe crystal lake it only laughs
It knows you're just a modern man
It's shining like the chandelier
Shining somewhere far away from hereI've gotta get outta here
I've gotta get outta here
I've gotta get outta here
I've gotta get outta here
And find my way again
I've lost my way againShould never have left the crystal lake
