Ten Pound Note

Steel River

More or less, either way it's true
It's come to this, and I can't stay by you
Well I'd like to stay but there wasn't a way
To stay here right or wrong
After today I'll be away but you'll still be in my song

CHORUS
Baby like a ten pound note, aah baby
Like a ten pound note, wieghin' heavy
Like a ten pound note ooh ooh
You'll still be in my song

Go your way and learn to live alone
rise each day but tell us how we've grown
What can I say, you look like a lady
Beaten by the world, outta my head
But I know what I said and I got to leave you girl

CHORUS

After all we'll need some time to breath
Rise and fall down, a look will set me free
Well once in awhile, I'll pick up and smile
And cry for what I've done, But I'll need some time
And I'll need my mind, to find the risin' sun

CHORUS...HUMM HUmm UUM You'll still be in my song
