Running With Scissors

Lovehatehero

Brother
What have you done
Sticking needles in your heart
Brother
We never say to walk away
From family

These so called friends
They care pushing your end
I hate my love for you
But you care for me
So I care fore you
Grab the rope
Will you come home
You?ve hit the ground so hard
Its breaking me breaking me down
Brother brother
We make a stand
You?ve hit the ground so hard
So take my hand

You said yourself that you were done with this
I believed you it?s the trust I missed
When my eyes you wanted the line
You were made proud of everything
Im your friend
Talk to me
Tell me anything
I love you despite everything
This is family

Grab the rope
Will you come home
You?ve hit the ground so hard
Its breaking me breaking me down
Brother brother
We make a stand
You?ve hit the ground so hard

So take my hand

This means everything to me
This means everything
To me

(screamo)

Will you come home

(solo)

Grab the rope
Will you come home
You?ve hit the ground so hard
Its breaks my heart
Brother
Will you come home
You?ve hit the ground so hard
So take my hand?
