

Sweet Talk

Spiritualized

Well, you sweet talk like an angel
But youre driving this blind
But dont you sweet talk like an angel tonight Well, you sweet talk like an angel
With a heart full of lies
But dont you sweet talk like an angel tonight And you talk like your mother and your father
But you just close your eyes
You dont care who youre messing around this time I cant take care of my baby
I cant take care of mine
Cause no God given war in this worlds about life And you say, where do you stand on the war?
Well, you stand right where you stood before
As far from the bullets and bombs as they fall And you stand there and fight for it all
But you dont own a gun
And when the shells start to fall all around
You dont have to run And you sweet talk like an angel
But youre driving this blind
Dont you sweet talk like an angel tonight
But dont you sweet talk like an angel tonight
But dont you sweet talk like an angel tonight
But dont you sweet talk like an angel tonight
