It's U

Jon B.

I've been waiting so long
I've been waiting so long love
I've been waiting so long
I've been waiting so long lover
So long
So long love
I've been waiting too long(Verse One)
Shinin thru the darkness
U turn my night to day...
Ignite me like a lighter
Then make my fire blazeEvery little thing we do is just to prove to u
How special u r
How special u r
This the show and prove for you
You know what u do,
You know who u r
Girl u who's the starGirl it's u
Its u
Its u
Its u
(Repeat)(Verse Two)
Keep me where it's soft and warm
Reserve my special place (2x)
So when we get to lovin you
I can fill up that empty space
Ooh yah...Every little thing we do is just to prove to u
How special u r
How special u r
This the show an prove for you,
You know what u do
You know who u r
Girl u who's the starGirl it's u
Its u
Its u
Its u
(Repeat)(Bridge)
Shine your light on me baby
Shine it bright
Shine it through the day and

Shine it through the night
(Repeat)Girl it's u
Its u
Its u
Its u
(Repeat)
