

# I Believe

## The Blood Divine

I believe in my conscience  
I obey that inner feeling  
I get scarred emotions  
When I try to find your inner heart  
The rulers are no real kings  
I believe in my instincts  
Yeah, I do... and I know it's true  
That inner feeling  
Don't ask me how I know the way  
To your inner heart  
Can't you hear me?  
I said rulers are no real kings  
I search inside... I thought the true thoughts in my kingdom  
were my own  
I thought the throne was all mine  
We share the light  
When the sun beats down  
On a Winter's day  
(It blows me away)  
I like the way that the sun shines down on us, yeah  
The rulers are no real kings  
I believe!!!
