Miss U

Blackfield

They said you're in love again
And I tried to hide my pain
I was buried in my bed
With your pictures in my headYou were living another life
It cuts me like a knife
I hope you understand
I'm the one who's left behind[Chorus x2]
Tomorrow you'll be gone
And I'll miss you
Yeah I'll miss you
Yeah I'll miss youThey said you're in love again
And my eyes start to burn
Wherever you are now
I wish you could hear my silent sigh
