

# Fool's Gold

## Chester Bay

"Fool's Gold" It's a lonely view and I'm looking in at the things that we might have been  
But a broken picture is all that we became

I saw you with Bartholomew; he was lying there on top of you

So I grabbed my boots my keys and split the scene Ooh girl, I'm through with sympathy  
You are fool's gold and your beauty does deceive

You loved me; at least you led me to believe it

But you're not worth my time or energy Now the back you stabbed is bleeding through  
Onto my bed sheets with someone new

And the faces in that frame are finally real

But you and I we were making believe

Like the smiles you used to give to me

Everyone knows you want me back, but here's the deal Ooh girl, I'm through with sympathy  
You are fool's gold and your beauty does deceive

You loved me; at least you led me to believe it

But you're not worth my time or energy

Well you ain't worth my time or energy Ooh girl, I'm through with sympathy

You are fool's gold and your beauty does deceive

You loved me; at least you led me to believe it

But you're not worth my time or energy

Well you ain't worth my time or energy It's a lonely view and I'm looking in at the things that we might have been

But a broken picture is all that we became Ooh girl, I'm through with sympathy

You are fool's gold and your beauty does deceive

Whoa you loved me; at least you led me to believe it

But you're not worth my time or energy

Well you ain't worth my time or energy
