

# The Other Side (Martin Roth Remix)

**Paul van Dyk**

When this broken through  
I will comfort you  
When I wake my tongue is tied  
Daylight brings the great divideWeeping like the rain  
Whispering your name  
Long to be reunified  
Believe the sun will rise  
When I reach the light  
I will see you on the other sideI'm sure the sun will shine  
When I reach the light  
I will see you on the other sideSee you on the other side  
When I close my eyes  
See you on the other side  
When I close my eyesSee you on the other side  
When I close my eyes  
See you on the other side  
When I close my eyesSpeeding City lights  
Leave me weak tonight  
Oh I miss your warmth inside  
Stars came out to shine  
Across the waterline  
I can feel you on the other sideSee you on the other side  
When I close my eyes and I reach the light  
See you on the other side  
When I close my eyesSee you on the other side  
When I close my eyes and I reach the lightSee you on the other side  
When I closed my eyes
