

# New Soul

## Monster Truck

Oh my girl won't you come with me  
give your hand to me?  
Let's ride all night by the pale moonlight  
carve a path through this country  
We'll drink old Whiskey under the stars  
make some fast money  
Oh my girl won't you come with me  
We can both be freeWe can both be freeNew soul  
give me your love  
Diamond Woman  
give me your love  
Wrap your arms around me now  
never let me go  
New soul  
give me your love  
Oh my girl, I will be your rock  
your shelter from the storm  
I'll be you lovin' teddy bear  
I'll always keep you warm  
So promise me you'll always be mine  
and I'll make a vow of my own  
Oh my girl, won't you come with me  
and we can both be freeWe can both be freeNew soul  
give me your love  
Diamond Woman  
give me your love  
Wrap your arms around me now  
never let me go  
New soul  
give me your love  
(...)New soul  
give me your love  
Diamond Woman  
give me your love  
Wrap your arms around me now  
never let me go  
New soul  
give me your love
