

She Glows

Zed

I never saw things going wrong,
It's turning out so complicated,
I'm missing her before to long,
This whole thing seems so over-rated, Quick like silver,
Bright like gold,
She knows she looks better, when sheShe glows,
I'm always second best,
And she knows, She don't need to dress up good,
Cos, everyone's so ordinary,
Acting like a good girl should,
She know she looks better, when she,
She glows,
I'm always second best,
And she knows,
My head is such a mess,
With all the secrets I've been told,
Yeah, She Glows, Now if she's gone, I know I'd lose,
Everything I ever wanted,
Has she been standing in my shoes,
Cos, she knows I look better when she, She glows,
I'm always second best,
And she knows,
My head is such a mess,
She glows,
I'm always second best,
And she knows,
My head is such a mess,
With all the secrets I've been told,
Yeah, She Glows, She just glows, she just glows,
She just glows, she just glows,
She just glows, she just glows,
She just glows, she just glows,
