Us Girls

Lorrie Morgan

Us girls have been best friends
Since the last time big hair was in
We know each other very wellOld hurts and brand new flames
Big jobs and baby names
And all the secrets we can never tellUs girls, we love and hate and love our men
Us girls, we laugh and cry and laugh again
We got legendary stories, we're anything but boring
We've got letdowns and hang-ups, laugh lines and break-ups
And all the grace the world will allow, us girlsFor 15 years we've passed around
The same advice, the same 10 pounds
Yeah, between us, we have tried it allMonths go by and we don't talk
Then we pick right up where we left off
We're always there to catch whatever fallsUs girls, we love and hate and love our men
Us girls, we laugh and cry and laugh again
We got legendary stories, we're anything but boring
We've got letdowns and hang-ups, laugh lines and break-ups
And all the grace the world will allow, us girls
