

Sleeping Light

EL VY

There's some great ideas on my blue ceiling
Well hallelujah
Looks like dreaming, but it feels like dead, I guess
Do whatever moves you If you're riding a nightmare and you can't go home
And you wanna come by, cause you can't be alone
I'll be right here with my hand on the phone
Sleeping light Oh, I never should have let you leave
This morning
Don't wanna drag you into everything
Ain't no Leonard Cohen
If you're riding a nightmare and you can't go home
And you wanna come by, cause you can't be alone
I'll be right here with my hand on the phone
Sleeping light Sleeping light
Sleeping light
Sleeping light
Sleeping light If you're riding a nightmare and you can't go home
And you wanna come by, cause you can't be alone
I'll be right here with my hand on the phone
Sleeping light Sleeping light
Sleeping light
Sleeping light
Sleeping light
Cause I can't be alone
I can't be alone
I can't be alone
I can't be alone
I can't be alone
I can't be alone
I can't be alone (Only you can move me)
I can't be alone
I can't be alone
(Only you can move me)
I can't be alone
I can't be alone
(Only you can move me)
I can't be alone
I can't be alone
(Only you can move me)

I can't be alone
