Take It All Out On You

[Kelly Willis](#)

You better look out you're gonna get it I'm gettin' worried for you
You got no idea what you're gettin' into
I've been alone for all these years I know you've been hurting
This world can be hard on a boy like you
I know I know what you've been through
That ain't no reason to keep you feeling blueOh why this burning inside me searchin' for someone to satisfy me
So much love what am I gonna do I'll take it all out on youIt doesn't matter what's the matter you do what you
gotta do
If it comes down to you need me and honey I need you
Oh let me tell you darlin' my love is trueOh why this burning inside me...
[guitar]
Oh why this burning inside me...
Oh why this burning inside me...
I'll take it all out on you yeah I'll take it all out on you
