Lost On The Moon

Duncan Sheik

Here the world is desert gray
Never do I see the day
Here there is different light
There's only night, only night
Just a trace of gravity
Nothing to hold on to me
Sometimes there are passing ships
Away they slip, away they slip
If you hear me let me know
And away we go
I walk across the rocky ground
And hear the stars with timely sound
Here there is no atmosphere

You are not here, you are not here
Somewhere above, fears and heights, and satellites
[Chorus]Without you
I'm lost on the moon!
Without you
I'm lost on the moon!
Without you
How I dream of sweet return
To fall so fast and feel the burn
Confetti flies, the grass band plays, a small parade, a small parade
[Chorus]
