

# Dark Ages

## Jack Frost

we saw this world shining bright  
oh, days in paradise  
back to the dark ages  
where I still belong  
back to the dark ages  
where I always was  
back to the dark ages and the sun was shining bright  
oh, we had days in paradise  
I'm going back to the dark ages  
where I still belong  
back to the dark ages  
where I always was  
back to the dark ages
