Love You Gently

Usher

First see the city skylights shining from my room
You?re such a sight to see in the month of June
Beautiful like the moon?s reflection when
It?s passing off your skin and before you let me in
I hear you say
It?s been a long time
I say okay, K, K, don?t worry I got you
Do ya say?
How ?bout some foreplay?
Got that, got plenty, I got you
Do ya say?
Play some slow ones
Got that Sade, Al Green and Marvin Gaye too
To love you gently
Let me love you gently
Lay back relax, girl I?ma be
Light as a feather but hard as a rock
?Cause daddy know just what you like
Gonna love you gently
Light as feather but hard as a rock
See I know just when to finish
And I know just when to start
And I?ll be lovin? your reaction
Every time I hit that spot
Gently
Bottom soft like leather
Gently
But the top is hard
Gently
Whisper your pleasures
Gently
Then I?ll do my job
Invigorating, intense
Girl, let me do what I do
I don?t know what?s echoing louder
The music or you
Gently
I ain?t close to be done yet
Gently

But your getting real warm
Gently
Like the calm of the thunder
Gently
Right after the storm
You say, you say, do you say it girl?
Make it
Gonna push it to the limit
It's yours, it's yours
See second place or win the race
I?m gonna be your number one
?Til the sun shines
Here comes the sun forever more
Let?s try and taste the moon again forever more
Let me touch you gently
That?s the sound of love
Ripping shades off the wall
Light as a feather but hard as a rock
This might not be in the bedroom
But I?m gonna love you girl, gently
Light as a feather but hard as a rock
Let me touch you gently
Light as feather but hard as a rock
Gonna love you gently
Light as a feather but hard as a rock
Can you feel me girl?
We don?t need no room
All we need is me and you
Wanna love you
