

# Home Of The Brave

## Spiritualized

I don't even feel it but Lord how I need it  
When I'm not with her I'm not all myself  
Sometimes have my breakfast right off of a mirror  
And sometimes I have it right out of a bottle  
Come on, come on  
I'm gonna rip it up  
Tear it out  
Gotta get it off of my soul  
I don't even miss you but that's 'cause I'm fucked up  
I'm sure when it wears off then I will be hurting  
And just 'cause the sun shines when you're out of my time  
And just 'cause I feel bad and feel good to fly high  
Come on, come on  
I'm gonna rip it up  
Tear it out  
Gotta get you off of my soul
