Handshakes To Fist Fights

Devour the Day

Advisory - the following lyrics contain explicit language:

I met death in Memphis
on those lonely city streets
but i have found redemption
from that road that buried me
no matter what they do or say
don't let them take this dream away
rise up
rise up
the world can't shut us down

Gone too far
too far to fall back
relapse and go back to rehab
made our way through hard days and long nights
handshakes that turned into fist fights
we rise and we fall
we stand back up and evolve
we have come too far to just fall back
i ain't going out like that

Ft. Wayne couldn't save me
infatuation isn't love
i went fucking crazy
it showed me who i really was
no matter what they say or do
they can't take that away from you
rise up
rise up
the world can't shut us down

Gone too far
too far to fall back
relapse and go back to rehab
made our way through hard days and long nights
handshakes that turned into fist fights
we rise and we fall
we stand back up and evolve
we have come too far to just fall back
but i ain't going out like that

come too far
too far to just fall back
I ain't going out like that
