

Love Is Our Business

[John Michael Montgomery](#)

Don't need a vacation to get work off our minds
Me and my baby, we beg for overtime
We'd stay on the clock 'round the clock if we could
Love is our business and business is good
Yeah, love is our business and business is boomin'
It don't seem like work 'cause we love what we're doin'
Satisfaction guaranteed and that's understood
Love is our business and business is good
We keep climbin' higher on the ladder of success
Who'd want to retire with benefits like this
Don't even close on Christmas, even though we know we should
Love is our business and business is good
Yeah, love is our business and business is boomin'
It don't seem like work 'cause we love what we're doin'
Satisfaction guaranteed and that's understood
Love is our business and business is good
Yeah, love is our business and business is boomin'
It don't seem like work 'cause we love what we're doin'
Satisfaction guaranteed and that's understood
Love is our business and business is good
Satisfaction guaranteed and that's understood
Love is our business and business is good
