

# Start Of Time

Gabrielle Aplin

Oh today I'm just a drop of water  
And I'm running down a mountainside  
Come tomorrow I'll be in the ocean  
I'll be rising with the morning tide[Chorus]  
There's a ghost upon the moor tonight  
Now it's in our house  
When you walked into the room just then  
It's like the sun came out I'm an atom in a sea of nothing  
Looking for another to combine  
Maybe we could be the start of something  
Be together at the start of time[Chorus]It's like the sun came out  
And the day is clear  
My voice is just a whisper  
Louder than the screams you hearIt's like the sun came out
