

In a Drawer

Band of Horses

Sitting on a bear skin rug
Listening to grandpa talk
The whistle of an odd bird call
A photo of the long lost dog

Do you love me? Or which one is it?
We should be living in a warehouse district
I take the day and the lesson it taught me
Passing off blame to anybody is easy
But darling
You know it shouldn't be like that
Can I go with you to the laundromat

I found it in a drawer
In a drawer
I found it in a drawer
Took a Little time but now I found it
In a drawer
Can't go on, no I'll go on
Left it a long time ago in a drawer
Hidden in a drawer
I found it at the bottom
I found it in a drawer
Can't go on, no I'll go on
I found it in a drawer

The creaking wood under my walk
Familiar like an old time song
A memory when you were young
Remembering a time long gone
