

# Give Me Some More

Bob Sinclar

Give me some more, some more some more  
Hold your drink up, lets us get wild  
We came to party Miami style  
We are people, go all the way, get on the floor it's time to bring  
Always a good time to celebrate, so grab somebody and dance the night away

We came to party, keys in the car,  
I need to refill, go to the bar  
we came to get down, down to the floor  
I need to refill just get me some more wowowooooo  
Give me some more wowowooooo  
Give me some more, some more some more

So hold your drink up don't spill a drop  
Don't want this music to ever stop  
This party's jumping you can't deny so put your rimee up to the sky  
Always a good time to celebrate, so grab somebody and dance the night away

We came to party, keys in the car,  
I need to refill, go to the bar  
We came to get down, down to the floor  
I need to refill just get me some more wowowooooo  
Give me some more wowowooooo

Jump to the front jump to the back slide to the left and wiggle with your right  
I wanna see you move it move it  
I wanna see you shake it grove it  
Bump with your bump and grind with your grind  
Listen to the music let it get you winde up  
If I get on the floor turn it up give me some more  
Mamasita; senorita; get on the floor get out your seeta,  
For the ragda let the music pick you up you better use it  
Bootcha basa bona dema  
Let the man review your dream, you go back to the floor  
Dip down and give me some more

We came to party, keys in the car,  
I need to refill, go to the bar  
We came to get down, down to the floor  
I need to refill just get me some more wowowooooo

Give me some more wowowooooo
