

Ten New Lives

[Molly Nilsson](#)

I'm afraid of nothing now
It's not as bad as it sounds
The world's crisis catches up in mind
Look bad but never look down
Wisdom goes and the drops of the future knows
The day the island said they were laughing at the back, hey!
That's a smile you meet but I asked it on the sea
The hairlines don't bright on me I'm afraid of nothing now x 5 Ten new lives but none of 'em went to paradise
But thanks for lending me that book
And it seem so pointless giving up on snuggling now
Say we'll live all night oh oh
And they can have their beauty of walls now
I won't be there any more
And they can have their newly walls now
I won't be there anymore I'm afraid of nothing now x 5
