Street Fighter (War)

Sick Puppies

Let's do thisFaking falls, stop and stall, take it all
Fact is I'm taking mine, I'm taking mine
Time is up, out of luck
Should've stood up when you had the time
But you're out of timeLet's do this, fight, fight, fight, fight
Lock and load, rock and roll
Bitch, it's all over, you're going down
You're going downGet ready to settle the score
And get ready to face the floor
'Cause it's time to remember it
WarThis is war and it's on tonight
So get up and fight, get up and fight
You've had all your life to run and hide
Now step up, now step up, let's do thisSat around, going down
How about a little reaction, man?
You can barely stand
Bitch slap, slow attack
Man, that was practically suicide
Next in lineGo, fight, fight, fight, fight
Fight, fight, fight, fightGet ready to settle the score
And get ready to face the floor
'Cause it's time to remember it
WarThis is war and it's on tonight
So get up and fight, get up and fight
You've had all your life to run and hide
Now step up, now step up, let's do this'Cause we're all about ready to break
And we're all about ready to break
Yeah, we're all about ready to break
Yeah, we're all about ready to breakThis is war and it never ends
So get up, get up, get up, get up
You've had all your life to run and hide
Step up, now step upThis is war and it never ends
This is war and it never ends
This is warLet's do this, let's do this
Fight, fight, fight, fight, fight, fight, fight
Let's do this
