Glass

Thompson Square

Tryin' to live and love
With a heart that can't be broken
Is like tryin' to see the light
With eyes that can't be openedYeah, we both carry baggage
We picked up on our way
So if you love me, do it gently
And I will do the sameWe may shine, we may shatter
We may be pickin' up the pieces here on after
We are fragile, we are human
We are shaped by the light we let through us
We break fast 'cause we are glass
'Cause we are glassI'll let you look inside me
Through the stains and through the cracks
And in the darkness of this moment
You see the good in thatBut try not to judge me
'Cause we've walked down different paths
But it brought us here together
So I won't take that backWe may shine, we may shatter
We may be pickin' up the pieces here on after
We are fragile, we are human
We are shaped by the light we let through us
But we break fast 'cause we are glassWe might be oil and water
This could be a big mistake
We might burn like gasoline and fire
It's a chance we'll have to takeWe may shine, we may shatter
We may be pickin' up the pieces here on after
We are fragile, we are human
And we are shaped by the light we let through us
We break fast 'cause we are glass
We are glass
