Timing Is Everything

Elysian Fields

I want you to understand
You're under observation now
You and your monkey gland
I can't get involved
You're knockin' on my pretty pink house
Just like a wrecking ball
Timing is everything
You can't catch me with that string
Timing is everything
It's everything to me
Wash up your face
Parading around with that sauce
Such a mad disgrace
I can't get involved
You're knockin on my pretty pink house
And sugar may dissolve
Timing is everything
You can't catch me with that thing
Timing is everything
It's everything to me
Think we're gonna need a rope
A high powered telescope
Wrap your legs around the radio
Get ready for my solo
Timing is everything
You can't touch me with that thing
Timing is everything
It's everything
O timing is everything
You can't touch me with that thing
Timing is everything
It's everything
It's everything
It"s everything
To me
