

This Heart is a Stone (Chill Mix)

Acid House Kings

They say your middle name is trouble
But I know it's CarolineThey say you remind them of problems
But I think you look like AudreyCaroline, I know that you put on a show
Every time you two disagreeThis heart is a stone
No one will ever break it
This heart is a stone
Close to you it breaks easily
Cause everything that they say
It tells me to go away
But everything that I feel
It tells me to stayThey say they can smell the drama
But I know it's No. 5They say you only bring heartache
But I know you bought a bottle of wineCaroline, I know that you put on a show
Every time you two disagreeThis heart is a stone
No one will ever break it
This heart is a stone
Close to you it breaks easily
Cause everything that they say
It tells me to go away
But everything that I feel
It tells me to stayThey say you're like a Monday morning
I say you're like a Friday night
I don't get their point
Anytime is a good time for being with youThis heart is a stone
No one will ever break it
This heart is a stone
Close to you it breaks easily
Cause everything that they say
It tells me to go away
But everything that I feel
It tells me to stay
