

# It Shouldn't Take Too Long

## Cutting Crew

Too many times have I told you, feel your way  
If it's question of answers, then have your say  
Don't go giving me reasons, we all have a price  
And in that moment of indecision, you'll never understand why  
It shouldn't take too long, to set the thing moving  
It shouldn't take too long, so long as you believe it  
It shouldn't take too long  
Forget the popular notion, lead the way  
You've never known what you wanted until today  
Through fire and water, you, you can survive  
To make the best of the situation, you have to understand why  
It shouldn't take too long, to set the thing moving  
It shouldn't take too long, so long as you believe it  
It shouldn't take too long, take too long to get what you want  
When I was a boy in the summer rain  
Every hour seemed days to me, oh I don't believe  
It shouldn't take too long, to set the thing moving  
It shouldn't take too long, so long as you believe it  
It shouldn't take too long, take too long  
It shouldn't take too long, take too long
