Fading

Kim Richey

Well, I can't seem to place the name
Of that town we went to last fall
It was up in the mountains, yeah, we took a train there
And that's pretty much what I recallFading, you are fadingYou took me dancing, out all night dancing
The best time I might have ever had
And didn't you kiss me, and make me laugh
When we said goodbye, wasn't it sad?Fading, you are fadingA sweet dream left behind
I can't seem to find my way back to (you.)You are fading
You are fadingWell, I've got letters, pictures too
But they can't come close to you
Days go by, and life goes on
And on and on, and on and on and onFading, you are fadingYou are fading
Aah
