

What If It Worked Like That

[Don Williams](#)

What if we were old when we got here
Got a little younger every year
And we all laughed in the face of fear
like it was nothing
What if we could all come in first place
take our time without being late
drink a few beers just to get in shape
yeah, wouldn't be something
What if it worked like that
what if this big old world didn't turn so fast
took a little less and gave a little more back
Yeah, what if it worked like that
What if we had to many friends
had more money than we could stand
And all the good times wouldn't end
they'd just keep on comin;
What if we could hug the ones we missed?
Clocking in meant catching fish
And all the pride and prejudice
Had to give into login?
What if it worked like that
what if this big old world didn't turn so fast
took a little less and gave a little more back
Yeah, what if it worked like that
What if it worked like that
what if this big old world didn't turn so fast
It took a little less and gave more back
Yeah, what if it worked like that
