Someone

Name Taken

You said that you can be someone
when the worlds against youand this place could not be worse
too much that hurts
so much for you to carryand you make me think
everything was wrong
and everyone except for youand you just cant see
that your to blame
for mistakes that youve madeyou can lie all you want
doesnt matter much to me
im not like you
anymorei know theres no one else to blame
further off as i believe
trying not to make someone elses mistakesand nothing wakes you up
youd rather sleep
desire still matterwish that i could get you out of it
wed move on forget the things we once saidyou can lie all you want
doesnt matter much to me
im not like you
anymorei know theres no one else to blame
further off as i believe
trying not to make someone elses mistakesand when you wait for
enemies and friends
dont bother dont bother
coming backyou said you could be someone
you saidyou can lie all you want
doesnt matter much to me
im not like youyou can yell all you want
about everything you see
theres not much to me to do
anymorei know theres no one else to blame
further off as i believe
were not gonna be the sameso lets sit around
and lets say goodbye
so lets sit around
and lets say goodbyealways so alone
i wish that youd stay
