

Signs of Life

Arcade Fire

Those cool kids
Stuck in the past
Apartments of cigarette ash
Wait outside until it begins
Won't be the first ones in Spend your life waiting in life
You find it hard to define
But you do it every time
Then you do it again Looking for signs of life
Looking for signs every night
But there's no signs of life
So we do it again
Looking for signs of life
Looking for signs every night
But there's no signs of life
So we do it again
First kiss tastes like cigarettes
Dead man walking take your bets
Once again you lost your friends
Around and around again Those cool kids
Stuck in the past
Apartments of cigarette ash
Where are we going?
Who did you ask? Those cool kids
Stuck in the past
In a world of cigarette ash
Where are we going?
Who did you ask?
Who did you ask?
Looking for signs of life
Looking for signs every night
But there's no signs of life
So we do it again
Looking for signs of life
Looking for signs of life
Looking for signs every night
But there's no signs of life
So we do it again Monday, Tuesday, Wednesday, Thursday
Friday, Saturday, sometimes Sunday
Love is hard, sex is easy

God in heaven, could you please me? You think you invented life
You find it hard to define
But you do it every time
Then you do it again Looking for signs of life
Looking for signs every night
But there's no signs of life
So we do it again
Still looking for signs of life
Looking for signs of life
Looking for signs every night
But there's no signs of life
So we do it again Those cool kids
Stuck in the past
In a world of cigarette ash
Where are we going?
Who did you ask?
Who did you ask? Looking for signs of life
Looking for signs every night
But there's no signs of life
So we do it again
Looking for signs of life
Looking for signs every night
But there's no signs of life
So we do it again Still looking Looking for signs of life
Signs of life
Still looking for signs of life
Signs of life
Looking for signs of life
Looking for signs every night
But there's no signs of life
So we do it again
Looking for signs of life
Looking for signs every night
But there's no signs of life
So we do it again So we do it
